From 2004-05 onwards, OVL expects a gross revenue of about US $ 60 million (Rs. 288 cr. approx.) from the project.

(b) OVL has developed this project in partnership with British Petroleum and Petrovietnam, and the three partners hold 45%, 35% and 20% participating interest, respectively, in the project.

(c) OVL has participating interests in the exploration Blocks in Iran (Farsi Offshore), Iraq (Block-8) and Myanmar (Block A 1). As these Blocks are in exploration stage, no reserves have been established as of today.
